3. On the next page you will create a domain:

NOTE: The first domain with Bluehost will be **FREE**.

Next, we'll set up your domain.

Your domain will be your website's address.

You can create a new domain, use one you already own, or make one later.

Don't skip this step

Create a new domain
 .com
Search available domains
Next

Use a domain you own

Enter your existing domain name
Next

a. Simply type in a word (or words) of your choice

Some examples: theunstoppable, goingbeyond, digitalhero, freelancelife ...etc.

Create a name here

NOTE: Please do NOT use "Fullstaq" in your domain name.

TIP: Just have fun with it! It doesn't need to be perfect. An average domain name is better than no domain name.

IF YOU CAN'T THINK UP A NAME JUST USE YOUR OWN.

example: jasonodell

- b. Next, leave the domain extension as **.com**
- c. Click the blue "next" button.

Set up Site

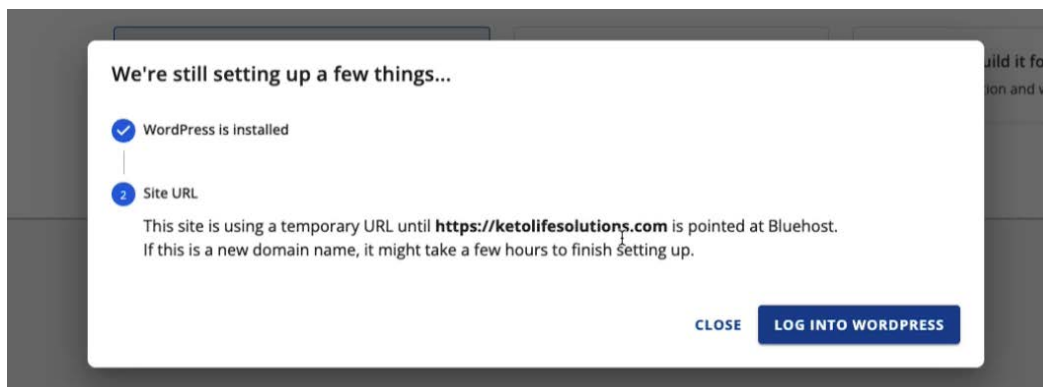

[<](#) **Choose a site title**

Give your new site a name. You can change this at anytime.

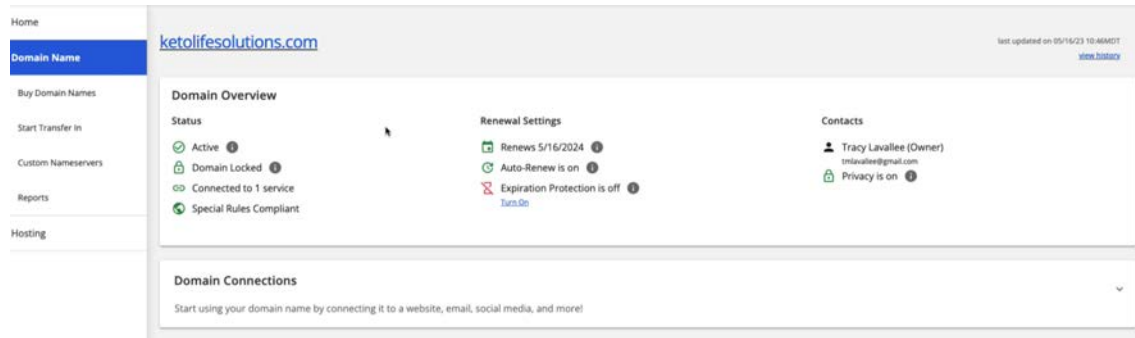

- a. On this screen click on “No help needed” and then click Continue.

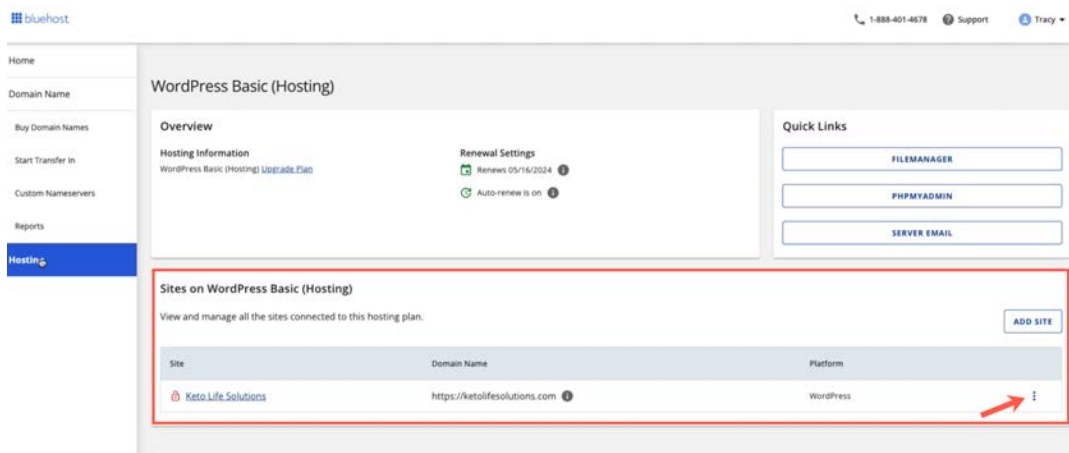

- b. The pop-up box is providing information that your Wordpress site is being installed and that the site will use a temporary URL until your domain is pointed to Bluehost. Click Close

- c. To double check that everything is set up correctly, click on Domain Name and the Domain Overview will open. All items should be green icons.

- d. To double check your Wordpress site is set up, click on Hosting on the menu on the left hand side.
- i. Click on the 3 dots to the right of the domain name and click Login.

Once you have confirmed your Wordpress site is set up, close it and go back to your Bluehost dashboard!

CONGRATS!!

ALL FINISHED. Your Bluehost, Domain and Wordpress site are now good to go!

For steps on completing the verification process, continue on to the next page.

Below are the steps to complete the verification process.

1. Click on Hosting on the menu on the left. You should see your domain listed there.
 - a. Highlight your domain name and paste it in the notepad you saved your ClickFunnels Subdomain and GetResponse API key.

The screenshot shows the Bluehost dashboard for a WordPress Basic hosting plan. The left sidebar has a 'Hosting' menu item highlighted. The main content area is titled 'WordPress Basic (Hosting)' and includes an 'Overview' section with 'Hosting Information' and 'Renewal Settings'. Below this is a 'Sites on WordPress Basic (Hosting)' section with a table listing sites. A red callout bubble points to the domain name 'https://ketolifesolutions.com' in the table.

Site	Domain Name	Platform
Keto Life Solutions	https://ketolifesolutions.com	WordPress

CONGRATS!!

You are ready to move onto the last step.
